

RALLY FOR A COAL FREE FUTURE!

The coal mines proposed by Compliance Energy Corp on Vancouver Island are a serious threat to the water, air, and economic livelihoods in communities throughout this region.

Wherever coal mined in BC ends up being burned, the danger to human and environmental well-being must not be ignored. Recent massive protests in China opposed to an increase in coal-powered plants there are a reminder that **COAL IS A GLOBAL ISSUE.**

2012 is the year of the Water Dragon in Chinese mythology which symbolizes, in part, perseverance and the overcoming of obstacles...

GREET the dragon on Jan. 21st in Buckley Bay at 1:00 pm, and unite with other concerned citizens in solidarity for a coal free future!

HEAR a variety of speakers, and learn more about what's at stake in BC and beyond.
Did you know that Compliance Coal has mineral tenure over 31,000 hectares from Fanny Bay to Campbell River?

CELEBRATE solidarity through community resistance!

**SATURDAY
JAN. 21 ST @
1:00 PM in
BUCKLEY BAY**

SOLIDARITY - NOT COMPLIANCE!
